

## CUSTOMER SUCCESS STORY

# Agile Transformation: The Effects of a Completed Agile Transformation

**Company Type:** Financial Services Company

**Developers Analyzed:** 300 to 500 Developers

### The Background

This project was with a mature client who was looking for information on how their agile transformation had affected their business. This task was completed as part of their annual review.

### Which Product?

Developer Analytics (DA) was fully implemented into the clients systems and had been running for quite some time when the request was made.

### The Results

Developer Analytics extracted data which showed an improvement over the past year since the client had completed their two-year agile transformation.

In the first quarter post-transformation, they had saved approximately \$9,000,000 (USD) and the Billable Coding Effort (BCE) costs had dropped by approximately \$200+ (USD). Additionally, as a result of the agile transformation the client's productivity had increased by roughly 120%.
